

## ONRAMPS AND YOUR STUDENT

OnRamps works with high school across Texas to give students the opportunity to earn college credit-helping them save both time and money. Over the past ten years, OnRamps has provided the tools for college success to more than 167,000 students.

## OUR COURSES

Students are enrolled in both a high school course and a college course, held on the high school campus. They have the potential to earn both high school and college credit. In each course your student will learn to communicate, work in a team, and manage their time. **There is no cost for your student to enroll in OnRamps courses.**

### 2024-2025 OnRamps courses offered at Travis High School:

- **US History: United States History**
- **Physics 1: Mechanics, Heat, and Sound + Lab Physics**
- **English 4: Rhetoric and Writing**
- **Algebra 2: College Algebra**

SC342T	PHYSICS	PHYSICS 1: MECHANIC, HEAT, AND SOUND + LAB	11TH GRADE, ALGEBRA 1, GEOMETRY RECOMMENDED ALGEBRA 2 OR PRECAL

## QUALITY TEACHING

OnRamps provides unique and dynamic professional learning and development to high school teachers. This helps promote a classroom environment that aligns to the academic and social expectations of colleges and universities engaging students in a meaningful learning process. High school teachers of an OnRamps course receive over 80 hours of training and year-round support their first year with OnRamps, followed by over 35 hours each subsequent year.

+ ACCESS	+ TRANSFERABILITY	+ FLEXIBILITY	+ PREPARATION
Students are not required to take a placement assessment (such as TSIA) to qualify for enrollment.	OnRamps courses with a core curriculum designation are required by law to transfer to public colleges in Texas with a grade of C- or above.	Students who earn college credit may choose to accept or decline the credit based on their college goals.	Students develop skills that prepare them for college and support their transition beyond high school.

## HOW WE WORK

### College Credit Eligibility

Students can earn separate grades for the high school and college courses. To be eligible for the opportunity to earn college credit, students must meet minimum grade requirements on selected college assignments and assessments, or meet minimum scores on the TSIA 2, ACT, or SAT.

### College Credit Decision

Students who earn college credit may accept or decline the credit. Students who accept credit will have an official university transcript with the final college letter grade. The letter grade may factor into a student's college GPA, depending on the college policies. \*

Students who decline credit will not have a university transcript. Declining credit has no impact on a student's financial aid status.

## HOW TO ENROLL

### Student Eligibility

Students are welcome to register for an OnRamps course after they have finished the required prerequisite high school courses. Check with your high school about the requirements for each OnRamps course. OnRamps students are not asked to complete any college applications or test to enroll.

### Student Role

Students who take an OnRamps course must follow the same rules and regulations as university students and should be prepared to engage critically with rigorous, college-level content.

*\*Credit policies are unique to each higher education institution, research is recommended before making credit decisions.*
